

Ancient monumental well.

COD. 399947

Period: Quattrocento

Important and very rare Tuscan well in travertine. Completely carved and decorated with floral motifs on the four sides, it has four coats of arms in the four corners including a rampant lion, a tower with a lion, a rooster and crossed hands. Placed on its original floor, it is surmounted by a beautiful iron for taking buckets of water. Later, during the late 18th century, the very deep well was equipped with a water pump consisting of a large cast iron wheel that acted as a flywheel and a terracotta mask from which the water flowed. Period first decade of the 1400s. Origin Florence. The iron with pulley is from the same period as the well, therefore coeval.
